How to make Balance Scales

You will need:

2x Plastic Cups

Scissors

String

Coat Hanger

Hole Punch

- Hole punch 2 holes opposite each other on the plastic cups.
- Cut 4 pieces of string approximately 30cm long
- Tie the string to the cups and attach to either end of the coat-hanger.
- Hang the coat-hanger on a handle (A door handle works perfectly)
- You are now ready to start weighing things!
