

Write a review of your library

We would like to know what you think of this library. By thinking about this, you will see how many things a library offers. What you tell us will also help the library find out how to make things better for you.

Before you start, take a really good look around to see what's on offer. You may find it useful to look at the Norfolk County Council website too.

Please be honest, polite and constructive.

What do you think is the best section of this library? _____

What do you enjoy doing most in this library? _____

What parts of the Children's Library do you like best? _____

Is there anything that you enjoy that the library hasn't got books about?

If you were the boss, what changes or improvements would you make to get more children to use the library? You can suggest anything realistic, considering cost, space and what could fit in.

You should give this sheet to the librarians to keep, as it will help them to think about how to keep their library popular and well used.
