Knowledge Organiser: Weather and Nature

Vocabulary - Weather

hail - frozen rain that is in the shape of pellets

fog - cloud that touches the ground, it can be very thick

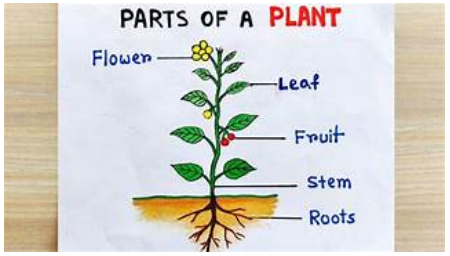

temperature - a number (usually in **celsius**) that tells us how hot or cold it is, measured with a **thermometer**

rainfall - the amount of rain or drizzle that falls, measured with a **rain gauge**

weather forecast - scientists predict what the weather will be like and display it on a map

meteorologist - someone who studies the weather, and makes predictions

Vocabulary - Plants and bulbs

alive - a person, animal or plant is not dead and continues existing

dead - no longer alive

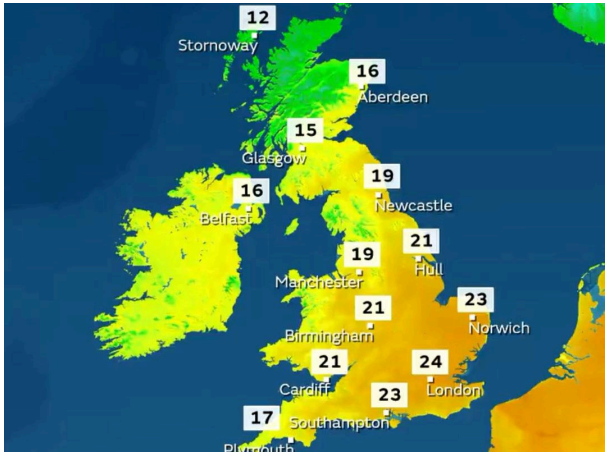

never alive - anything metal, plastic or stone has never been alive

plants - have roots, stems, leaves and petals

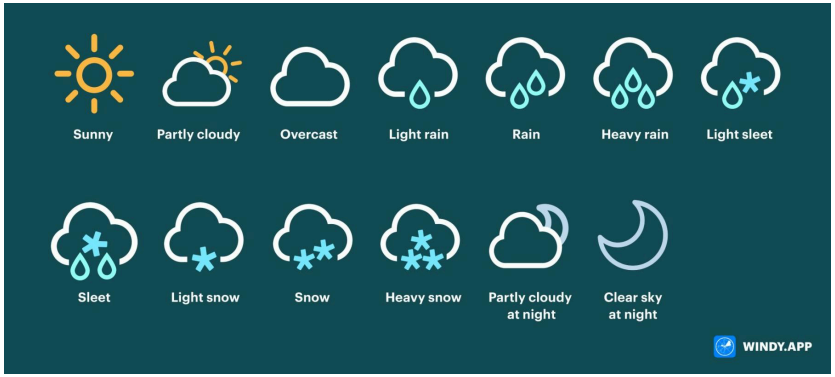

bulbs - an underground bud or stem of a plant at resting stage.

Plants need water, light and a suitable temperature to grow well.
